How to Use

Initial setting when installed

Go through steps 1 to 10 with setting the language and your profiles (option) and go back to the home screen by the “back” button on top left.

Usage

When your smartphone is active with GPS, the position-dependent tourist information is automatically notified with screen and voice. You can also go through the same information with manual operation.

Area Guide

Manual walkthrough from menu

Hosooka Viewpoint

This observatory is representative of the eastern portion of the wetland. It offers a spectacular view of the Kushiro River meandering through the wetland and the sun as it sets over the wetland with Mt. Oshika and Mt. Mosekan in the distance.
